Hi there! I'm a UX and UI developer located in Göteborg. I love anything creative and that, in combination with a great interest in working with people, is how I ended up in this field. With my designs i strive to provide practical and easy to use designs that keeps the user intrigued by using visual interest. I find great interest in both graphical design and human computer interaction. I enjoy connecting with people and really like working close to the target group.

What i like to do in my spare time:

🧶 Knitting

🏋️ Working out

👫 See friends and family

🤾 Disc golf

Graduate 2022
MSc Interaction design and technologies
BSc Design and product development

EXPERIENCE

- 2022
Master Thesis: Föreningen Grunden
Developing an event application for people with cognitive disability.
